

Welcome

Stream Landscape Architecture + Planning (Stream) focuses on technically challenging and resilient projects in the water-resources, green infrastructure, parks and open space, recreation, and urban design realms.

We are seeking inquisitive, enthusiastic, and team-oriented candidates who think creatively and strategically with a passion for developing their professional acumen in the water-resources, public infrastructure, and parks/recreation areas of practice. Ideal candidates will be self-motivated and ambitious with exceptional research, communication, graphic, and drafting production abilities while also being passionate about all phases of work including design, planning, project management, construction administration, and business development.

Philosophy

We believe strongly in a healthy work/life balance and greatly value team members who are motivated by their own drive to create exceptional work. We embrace unique backgrounds, skill sets, personalities, and experiences. Our team-members are provided with excellent benefits including competitive salary, paid time off, profit share bonuses, retirement savings, wellness and health insurance, and assistance with continued education, and professional licensure.

A successful applicant will have a solid proficiency and the following baseline skills/experience to fulfill the requirements of each position listed:

Landscape Designer Experience level: 2 to 5 years

- A degree in landscape architecture (from an accredited university) with 2-5 years of professional work experience;
- The ability to work collaboratively with senior staff to fulfill design and project work requirements;
- AutoCad, Adobe Creative Suite, Sketchup and Lumion (bonus: 3D Civil, etc.);
- Drafting and preparation of project graphics, construction documents, research, etc.;
- Strong graphic rendering capabilities (hand and digital);
- Professional communication skills (verbal and written)

Landscape Architect Experience level: 5+ years

- A degree in landscape architecture with 5+ years of professional work experience;
- The ability to work independently, guide junior level staff, and participate in all aspects of design;
- AutoCad, Adobe Creative Suite, and Sketchup (bonus: 3D Civil, Lumion, etc.);
- Construction document preparation, drafting, and spatial / detail design;
- Strong graphic rendering capabilities (hand and digital);
- Professional communication skills (verbal and written) and client/consultant coordination.

Other professional skills/qualifications that would be valuable to the firm are:

- Exceptional concept design development, site design, and grading skills (bonus: parks and/or water-resource related);
- Licensed P.L.A. in Colorado (or progress on licensure track);
- Experience with or desire to participate in marketing and business development and proposal development.
- Proven ability to manage projects/tasks, schedule and delegate work, and to mentor junior staff;
- Understanding of construction observation, proposal development, specification writing, business operations, and verbal presentation development and delivery.
